

Bi-Colour Red/White in a single package

Designed for annunciator applications where there is a requirement for multicolour indication in a single package the Lxx 2093 bi-colour LED offers a low cost solution in a compact 3.0mm through hole package. The water clear lens provides focussed high visibility with a viewing angle of 30° and is terminated in a 3-lead common cathode configuration. The two integral dice produce emission at red 630nm and white x, y, (0.31,0.32). Luminous intensity is quoted at 1500mcd typ@ 20mA drive current.

A choice of other colour permutations is available and all devices are RoHs compliant.

Samples are available from Plus Opto Ltd.
