

Ltech Touch Panel Controller overview

We offer a range of single and multi-zone wall mounted, touch panel LED controllers with a choice of control options designed to be easily mounted into a standard single gang wall plate. Control may be via horizontal touch bar or colour wheel and we support the touch panels with a range of LED drivers and decoders in constant voltage and constant current outputs. We also offer rotary type controllers.

Rotary Style

Rotary wall mounted panel LED Controllers are supported with a range of LED drivers and decoders in constant voltage and constant current outputs.

- **E6-TD1** AC Mains Triac
- **E6-DA1** DALI
- **EX61** DMX
- **E610** 0-10v
- **E610P** 1-10v
- **BC-K3-RGB** Direct hard wire PWM 12V / 24VDC

Touch Panel

Capacitive Touch Panel LED Controllers are offered with a range of functions to support remote & wired control of LED products in constant voltage and constant current outputs.

- E series RF
- E1S 0-10v
- EX series RF+DMX
- EDT series DALI
- E series Dimming
- E series CT control
- E series RGB / RGBW/ RGB+CT

Touch Switch Panel

Capacitive Touch switch Panel LED Controllers

- EDA series DALI 1-4 Zones
- EXC series RF + DMX
